

Dystonia
IMPACT

A DELPHI STUDY Childhood Dystonia

Help shape childhood dystonia research.

WE'RE LOOKING FOR

- **Children & young people**
with non-degenerative dystonia (genetic, idiopathic, or acquired, including dystonia in cerebral palsy)
- **Parents & carers**
of children with dystonia
- **Healthcare professionals**
supporting these families
- **Researchers**
working in childhood dystonia

ABOUT THE STUDY

This Delphi study aims to identify what is most important to measure in research involving children and young people with non-degenerative dystonia and associated hyperkinetic movement disorders. Take part online: surveys or workshops.
